Subject: January/February Trustee Meeting

All

Below is the message I sent out in November regarding the rescheduling of our meeting and asking for everyone's January schedule. While I heard from most of you in response to my October email I only heard from one of you with regard to your schedule for January. Even though I only got one response I am assuming we all still want to meet. Please provide me with your schedules (days you can meet) for January and early February for a meeting in Spokane. Everything looks good for me except 1/6, 1/13 and the last week of January. Once I hear from most of you I'll get a meeting date and location out to everyone. In addition to discussing our letter to EPA, EPA has offered to meet with us on their latest reports and I am assuming that is something you want to do for part of our meeting. If not please let me know and also provide any other agenda items you may have.

Preston

I'll fax a copy of this to Allen Sedick and Q Brown

All

Well I've heard from most of you and it appears that we have enough people with conflicts for both the first and second week of December that they are both out of the running. Give me your thoughts on the third week of December - that may be bad for some of the feds who have use or lose leave. If so let me know how everyone's schedule looks for January. If there is no rush that may be best.

Preston
